Tapestry – online records of development

We use Tapestry, a system to record each child's time at The Lime Trees, which is hosted in the UK on secure servers. These servers conform to very high environmental standards and are proactively managed 24 hours a day. Each Tapestry account has its own database and the code itself is developed using hack-resistant techniques. Filenames are encoded for uploaded, videos and images, making Tapestry a safe and secure on-line Learning Journey tool.

The benefits to yourselves from Tapestry being on-line means you will have secure access (via a website which you login to using your email address and a password) to your child's Learning Journey and, in addition to viewing our contributions, we encourage you to add to it by uploading photos and comments, or commenting on observations made by us.

I give permission for The Lime Trees to use my information to share with a third party (Tapestry) to create an online Tapestry Learning Journey. **Yes/No**
